CAREER OBJECTIVE

Third-year B.Tech Computer Science and Engineering student seeking Software Testing and Quality Assurance (QA) internship and entry-level opportunities. Building hands-on skills in Manual Testing, the Software Testing Life Cycle (STLC), test case preparation, test execution and defect reporting using Jira, supported by SQL, MySQL and Java fundamentals. Detail-oriented and committed to continuous learning to help improve software quality.

TECHNICAL SKILLS

Software Testing: Manual Testing, Software Testing Life Cycle (STLC), Test Scenarios, Test Cases, Test Case Preparation, Test Execution, Bug Reporting, Defect Reporting, Smoke Testing, Sanity Testing, Regression Testing, Retesting

Programming Languages: Java (Core Java, OOP Concepts), C, Python (Basics)

Database: SQL, MySQL, Basic SQL Queries, CRUD Operations

Web Technologies: HTML (Basics), CSS (Basics), JavaScript (Basics)

Tools: Jira (Defect Tracking), MS Excel (Test Documentation), Eclipse IDE, Visual Studio Code (VS Code), Command Line (Basics)

Strengths: Logical Thinking, Problem-Solving, Attention to Detail, Continuous Learning

PROJECTS

E-Commerce Application Testing (Manual Testing) | Jira, MS Excel

- Prepared test scenarios and test cases for login and authentication, product search, wishlist, cart, checkout and payment-related modules of an e-commerce application.
- Documented test cases in MS Excel and reported and tracked defects using Jira.

AI Resume Builder | Lovable

- Created an AI-powered resume builder using Lovable that helps users create and organize professional resumes through a simple web interface.
- Generated structured resumes from user input, with a focus on clear formatting and content clarity.

Java Practice Programs | Java

- Wrote practice programs covering variables, operators, conditional statements, loops, methods, classes and objects.
- Applied Object-Oriented Programming (OOP) concepts to strengthen Core Java fundamentals.

Eco-Friendly Plant Disease Management | Community Service Project

- Carried out field work and research to identify plant diseases and explore eco-friendly approaches to plant disease management.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science and Engineering | 2024 - 2028 (Expected)
Sanskrithi School of Engineering (Autonomous), Puttaparthi | Affiliated to JNTUA | R23 Regulation | Currently in Third Year

Intermediate (MPC) | 2024
L.R.G. Naidu Junior College | Score: 941/1000

Secondary School Certificate (SSC) | 2022
L.R.G. Vidyalayam, Tirikera, Hindupur

CERTIFICATIONS

RISE Institute of Higher Technology, Module 2 (2026) | RISE, Austria | Mar 2026 | Verification: xiyrKVteyL
Problem-Solving and Self-Learning, Programming Fundamentals in Java and using the Command Line

RISE Institute of Higher Technology, Module 1 (2024-2025) | RISE, Austria | May 2025 | Verification: NhgKdDMVCP
Programming concepts using Scratch, self-learning using online resources, open-source and open-participation

ACHIEVEMENTS AND ACTIVITIES

- Participated in Gamified Learning on Object-Oriented Programming (OOP) at Sanskrithi School of Engineering.
- Participated in technical events on Artificial Intelligence (AI), Machine Learning (ML) and Large Language Models (LLMs).

ADDITIONAL INFORMATION

Languages: English, Telugu, Kannada, Hindi (Basic) | **Interests:** Listening to Music, Football, Cooking, Karate
